

It's Your Money

Do you want to spend it on:

- ❖ chain-sawing, grinding up, and removing thousands of healthy Australian pines on Sanibel?
- ❖ preparing land for replacing Australian pines with nursery-grown plants designated by the State as "native" because they were found in Florida prior to 1501?
- ❖ transporting, planting, and watering these replacement "native" plants until they're self-sufficient?
- ❖ employing a crew of City inspectors to monitor the entire process?
- ❖ fighting lawsuits by individuals/groups defending their rights as property owners?

Or would you rather see it pay for:

- ❖ protecting our estuary by restricting releases from Lake Okeechobee?
- ❖ building a new recreation center?
- ❖ improving the shared-use path system?
- ❖ re-vegetating Periwinkle Way?

Tell City Council that you oppose eradicating
Australian pines
